La-Resume-X

MORE THAN JUST RESUME IN LATEX

Thoughts behind La-Resume-X

- Students have to fill their details again and again for every company that comes.

- Placement Team needs to create form and manage the above pile of data every time.

- All resumes made by the students have to be in the same format.

La-Resume-X solves these...

Students now need to fill details only ONCE

start entering your details

download your resume(PDF) BETA version

Opening SICSR_Apoorva

You have chosen to open

SICSR_Apoorva

which is a: Portable Document Format
from: http://projects.sdrclabs.in

What should Firefox do with this file?

⊙ Open with Preview (default) ▲▼
○ Save File

☐ Do this automatically for files like this from now on.

Cancel   OK

Apply to companies that come.

- Can view a list of companies that are coming for them.
- View the company related information like eligibility etc
- Tick to apply / or un-tick to not apply anytime before the deadline date.

For the Placement Team Admins

HTTP://PROJECTS.SDRCLABS.IN/ LARESUMEX/ADMIN

Add incoming companies in the DB

- Add all details related to the company
  - Name
  - Eligibility
  - For which group of students.

Company

Companies   ➕Add   ✏Change

- Inform students about this company
  - A mail would be sent to the group of students informing about the company.

Inform students about companies ▼ | Go

Delete selected companies
Inform students about companies

- Add / Edit information about placed students.
  - Store information of which student got placed in which company
  - The starting stipend and the offered salary
  - The offered profile etc

Which Student Got Placements   ✚Add   ✎Change

Other Admin features

HTTP://PROJECTS.SDRCLABS.IN/LARESUMEX

- Get a list of all placed and not-placed students
- Fetch a list students
  - Select the company , and the fields
  - This will automatically fetch the fields of students applied for that company. And create a spreadsheet. This can be directly sent to the company
  - Select a group (batch) and the fields
  - This will generate the spreadsheet for all students in that batch (group). This can be used for analyzing and profiling

fetch students applied for a company

Select the set of students

| Select By Company | Select by Groups |

- MSc(CA) 10-12 ☐
- BBA(IT) 09-12 ☐

Select the fields of students, that the companies have asked for...

- Full Name ☐
- birthdate ☐

fetch all   Back

Download list in XLS format
Back   Home

In case of company related fields

- In case of more information required for the whole process, More fields can be added
  - Just enter the field name, and type of question
  - It will automatically appear as a question to students
  - It will also appear as a field for you to fetch data.

Company specifics   ➕Add   ✏️Change

FieldType:	Simple Text ▾
Key:	
	enter a key for internal purposes, WITHOUT SPACES or UNDERSCORE
DisplayText:	
	The text you want to appear on the form
